

EuroLat

**Euro-Latin American Parliamentary
Assembly meetings of the Standing
Parliamentary Committees**

EVENT HANDBOOK

Santo Domingo, Dominican Republic
From October 27 - November 3 of 2023

INTRODUCTION

It is an honor for the Dominican Republic to host the meetings of the Permanent Parliamentary Committees of the Euro-Latin American Parliamentary Assembly (EUROLAT) in the city of Santo Domingo de Guzmán, to be held from October 30th to November 2nd, 2023.

For the first time since the creation of EUROLAT in 2006, a meeting of this tenure is being organized in a Caribbean country. In a year marked by the revitalization of the EU-ALC bi-regional relations, we are confident that these meetings will serve to discuss and seek alternatives on mutual interest topics, with the aim of strengthening the ties between the two regions in particular.

We provide you this Operations Manual, which contains all relevant information for each participant, in order to ensure the success of their stay in our country and at the aforementioned event.

Senator Faride Raful, representing the Distrito Nacional, the capital of Santo Domingo, and Vicepresident of the Dominican Senate is responsible for coordinating this event and has taken the necessary measures to ensure that the meetings of the Permanent Parliamentary Committees of the Euro-Latin American Parliamentary Assembly (EUROLAT) are successful and meet the expectations of all participants.

We kindly request that you complete the requirements indicated throughout this document through the appropriate channels as soon as possible, taking into account the established dates.

THE DOMINICAN REPUBLIC AWAITS YOU!

IMPORTANT:

During the last months of the year, the following seasonal diseases are prevalent in the Dominican Republic: Seasonal Influenza A (H1N1), A (H3N2), and Influenza type B. In response, the Ministry of Public Health offers preventive vaccines through the National Vaccination Campaign against these diseases.

The vaccine, recommended by the World Health Organization (WHO), consists of three components that target the circulating virus strains and provide effective immunological responses against the mentioned disease.

The water supplied to the city of Santo Domingo is suitable for meeting needs such as personal hygiene and cleaning. In hotels and restaurants, water for consumption will be served in sealed bottles. We recommend never drinking tap water, as its quality may vary depending on the way it is stored.

VISA, ENTRY FACILITIES, AND FORMALITIES TO ENTER THE DOMINICAN REPUBLIC

In accordance with Bill No. 875 on Visas, dated July 21, 1978, foreigners traveling to the Dominican Republic must possess the corresponding visa in their travel document, with the exception of nationals from countries with which the Dominican Republic has signed agreements on visa waivers.

Please consult the following link to verify if you fall under visa waiver agreements:

<https://mirex.gob.do/condiciones-para-extranjeros-ingresar/>

We have requested entry facilities from the Ministry of Foreign Affairs for participants in the meetings of the Permanent Parliamentary Committees of the Euro-Latin American Parliamentary Assembly (EUROLAT).

Once the requirements for this procedure are available, they will be communicated to the representatives of the European Component and the Latin American Component.

IMPORTANT:

All delegates traveling to the Dominican Republic must complete an arrival and departure form, and the system will generate two QR codes. International Boarding and Disembarking.

Dominican airports offer free internet access, so passengers who have not completed the form before flying can do so upon arrival in the country.

Our recommendation is to have them ready when traveling.

The background is a dark navy blue field filled with a pattern of squares and rounded rectangles in two colors: a vibrant blue and a lime green. These shapes are arranged in a non-uniform, overlapping grid-like fashion, creating a modern, geometric aesthetic. Some shapes have rounded corners, while others are sharp squares.
